

PRODUCT DATA SHEET

1. 12G AMMUNITION – BIRDSCARING CARTRIDGES 12G Extended Range Tracer BSC (Rain Resistant)

Primetake Part - PT1044B
Catalogue No. 01.05.1044B
Version 4

Product and Packing Details

WEIGHT	20.10g approx
CHAMBER LENGTH	76mm
NET EXPLOSIVE QUANTITY	7.20g approx
SHELF LIFE	5 years under controlled storage conditions
RANGE	80m ± 10m
PACKAGING	M2A1
DIMS mm	306x156x192
QTY PER OUTER PACK	120
GROSS WEIGHT NOMINAL	5.44kg
MAXIMUM NEQ	1.194kg
PROPER SHIPPING NAME	Articles, pyrotechnic
UN SERIAL NUMBER	0431
HAZARD CLASS	1.4G

Methods of Use

Primetake Bird Scaring Cartridges are designed to be used in and around airports and airfields to help with control of bird movement and their dispersal.

Description

The Extended Range Cartridge produces a slight green tracer and smoke trail during flight with a loud report. The Cartridge comes in a red plastic case with a foil top to make it rain resistant and has a range of 80m ± 10m (depending on environmental conditions) when fired at a recommended angle of 45°.

Performance/Safety

Cartridges should only be fired through a signal pistol sleeved to 12G. Not to be fired through 12G pistols or shotguns.

Range Safety Template available on request.

Articles should remain within the original sealed package and be stored within a temperature controlled environment of +5°C to +30°C; relative humidity should not exceed 70%. Storage outside of these conditions will not be warranted and may reduce the shelf life and lead to the articles not functioning as intended.

At Primetake we constantly review our products—all specifications are a guide and may vary so please check that the latest specification meets your requirements
